DIRECTOR'S REPORT

The un-audited interim condensed financial statement of your Company with auditors review report thereon for the half year ended December 31, 2015 is presented along with an update on the Company's affairs and performance.

The results for the last six months shows a net loss of Rs. 3.186 million (Dec. 2014: loss Rs. 9.9041 million). Sales for the period were Rs. 23.100 million (Dec. 2014: Rs. 12.444 million).

Due to the seasonal nature of our business, we spend on production for the first six months and the output/sales come in the remaining period. Our major crop is Corn. Unfortunately last year was one of the worst for production. This year we have worked diligently to have better production of quality seed. We hope the results of this will be evident in the coming months when we sell the seed. The results of our new products hybrid 929, 2236 and 2368 are very promising and competitive with other seeds. Presently we have kept our margins low to introduce our self in wheat and cotton market. However, we plan to do not only larger quantity but also increase the profit margin in these crops.

Our policy of delinting & processing of seeds for third parties continues. We have established ourselves in this field and we do more third party delinting of seeds than any other company.

The management and sponsors are fully behind the project and assure the shareholders of all our efforts to make this venture a success.

Lahore
